Re: Application #10/770,106

Dear Ms. Collins:

Please review your latest correspondence with me regarding the above pending patent application. You will remember that I responded to your request to provide REPLACEMENT pages as indicated. The latest letter from you indicated that I did not comply with AMENDING my application. The code section you referred me to was for amending, not replacing the corrected portions of the application. I would appreciate your careful re-consideration of the proposed abandonment. I am trying in good faith to comply with your directions.

Respectfully,

Angelo Petralia
